A full range of VHR image products

→ Basic Image products delivered according to user's AOI

- Polygonal AOI inside a 20km scene or across single-pass adjacent strips
 - Minimum size 100 km²
 - Capacity to deliver PHR Scene ou sub-scene
- Products invoiced per km²

→ Standard image products

- All System products (PAIPSY)
- Fast automated data processing inc. on-line delivery
- Includes single-pass ortho mosaics

→ Potential Value-added products

- Multi-date mosaics, DTM from stereo, Very High location accuracy
- Upon specific quotation & user's demand

© Spot Image 2008 Pleiades Information Day 7 7 SPOT IMAGE

Standard image products

→ 50 cm B&W

- 8 or 16 bits

→ 2 m colour

- 4 bands : B, R, G, NIR
- 8 or 16 bits

→ Pan Sharpened 50 cm colour

- 4 bands : B, R, G, NIR
- 3 bands in True or False colours
- 8 or 16 bits

→ Bundle : 50 cm B&W + 2 m colour bands

- 8 ou 16 bits

Simulated extracts

© Spot Image 2008 Pleiades Information Day 8 8 SPOT IMAGE

Example 1: Pan-sharpening, false colours

Example 2: Pan-sharpening, true colours

Example 3: Pan-sharpening, True colours

© Spot Image 2008 Pleiades Information Day 11 SPOT IMAGE

Standard products: Stereo pairs

→ **Definition of PHR Stereo pairs :**

- A pair of 2 sensor level image products obtained from along track stereo imaging mode (*Off track stereo is also possible*) on the same orbit
- 50 cm N&B or colour
- And/or 2 m colour
 - Maximal length of segment for stereo pairs depends on B/H ratio as follows:

B/H	Length
0.15	20 km
0.2	60 km
0.3	120 km
0.4	175 km
0.5	225 km
0.6	280 km
0.7	300 km
0.8	300 km
0.9	300 km

© Spot Image 2008 Pleiades Information Day 12 SPOT IMAGE

Standard products: Stereo triplets

→ Stereo triplet :

- A set of 3 sensor level image products obtained from 3 along track views on the same orbit
- 50 cm N&B or colour
- And/or 2 m colour
 - Maximal length of segment for stereo triplets depends on B/H ratio as follows:

B/H	Length
0.3	20 km
0.4	60 km
0.5	90 km
0.6	120 km
0.7	145 km
0.8	175 km
0.9	205 km
1	225 km

© Spot Image 2008 Pleiades Information Day 13

Processing levels

→ SENSOR

- Corresponds to usual 1A level , "push-broom like" image
 - radiometric corrections
 - Perfect P and XS registration
- 50 cm B&W and colour , 2 m colour, bundle, stereo and tri-stereo

→ ORTHO

- Orthorectification using DTED2 DTM (Ref 3D or external DTED2)
- Location accuracy: better than 10m (CE90)
- 50 cm B&W and/ or colour, 2 m colour, stereo and tri-stereo, single-pass mosaic

Swath width	Maximum length
Min. Viewing Angle 20°	
60 km (3 bands)	185 km
80 km (4 bands)	110 km
100 km (6 bands)	70 km
120 km (6 bands)	45 km
Min. Viewing Angle 30°	
60 km (3 bands)	315 km
80 km (4 bands)	205 km
100 km (6 bands)	150 km
120 km (6 bands)	110 km
140 km (7 bands)	85 km

MNT PHR ↑

Single pass mosaic capability.
Image quality is guaranteed for 3 strips (60km x60km).

© Spot Image 2008 Pleiades Information Day 14

Product formats and volumes

→ Format

- **DIMAP**
 - JPEG 2000 for the image
 - nominal compression (~3.5 bits/ pixel) or Reversible compression (8 bits/ pixel)
 - GeoTIFF
 - GML (vector masks)
 - Includes RPC
- **ISO/OGC**
 - ISO 19139

→ Sensor-level scene volume

	<i>Nominal</i>	<i>Reversible</i>
□ scene (20 km x 20 km)		
■ PAN (50 cm)	0.7 Gbytes	1.5
■ XS (2 m) 4 bands	0.2 Gbytes	0.4
■ PA+XS (50 cm) 4 bands	2.9 Gbytes	5.9

Ortho-level scene volume

- **Close to Sensor-level volume**

→ Delivery: Media or FTP

© Spot Image 2008 Pleiades Information Day 15 15 SPOT IMAGE

Value-Added Products

→ Goal: to elaborate user-oriented specific products from system products

→ Three types of products are achievable in a project-oriented approach between Spot Image and the end-user

- **Multi-date Mosaic: Patchwork of PHR strips acquired at different dates**
- **Image product with improved location accuracy: requires appropriate DTM and relevant collection of GCP (<1m CE90 is the target). GCP and DTM can be customer-furnished items**
- **DEM from PHR stereo**
- **Vector extraction ?**

Summary

1. Image products overview
2. **Catalog and Programming services**
3. Pleiades for the ground stations: extended services
4. Pleiades data policy

© Spot Image 2008 Pleiades Information Day 17 17 S P O T I M A G E

Catalog services (1/2)

- Access to a world-wide catalogue, updated permanently
 - describes world-wide archived civilian source data
- Internet portal (SIRIUS On Line), enabling :
 - Pleiades catalogue browsing
 - Request for quotation service
 - Direct Customer ROI input or selection of scenes/ segments/ mosaics
 - Ordering activation for registered clients
 - Product progress follow-up
 - Subscription services
- Extended services :
 - Automatic optimal data search for AOI coverage
 - based on user criteria
 - useful to prepare mapping projects

© Spot Image 2008 Pleiades Information Day 18 18 S P O T I M A G E

Catalog services (2/2)

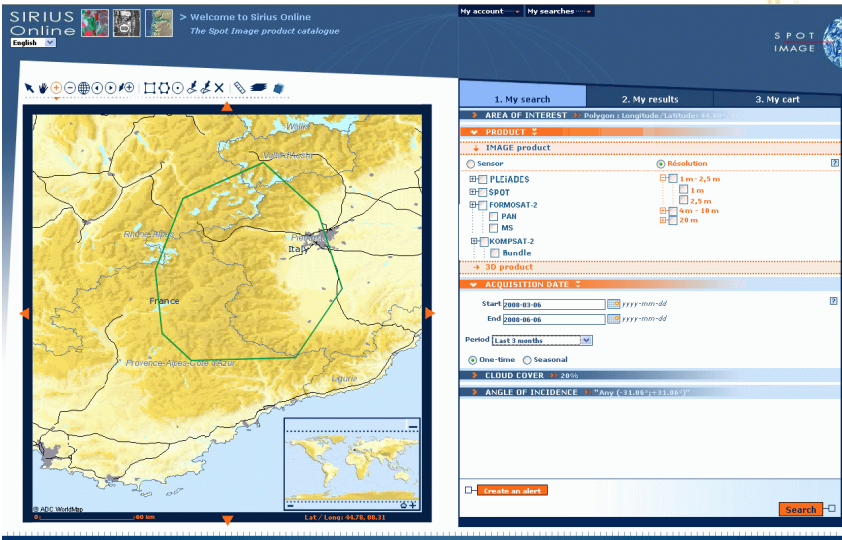

→ Catalogue contents

- metadata (ISO standards)
- image album (20m resolution) or quick-looks
 - 4-band colour images
 - JP2000 standard for album : used for validation loop or for specific customers
 - quick-look images for Internet access
- different masks
 - image quality
 - cloud cover
- specific descriptors for browsing and production
 - stereo/ tri-stereo criteria
 - monopass criteria

Internal use

Pleiades in SIRIUS On-Line

The screenshot shows the SIRIUS Online interface. On the left is a map of France with a green polygon indicating an area of interest. On the right is a search results panel with the following sections:

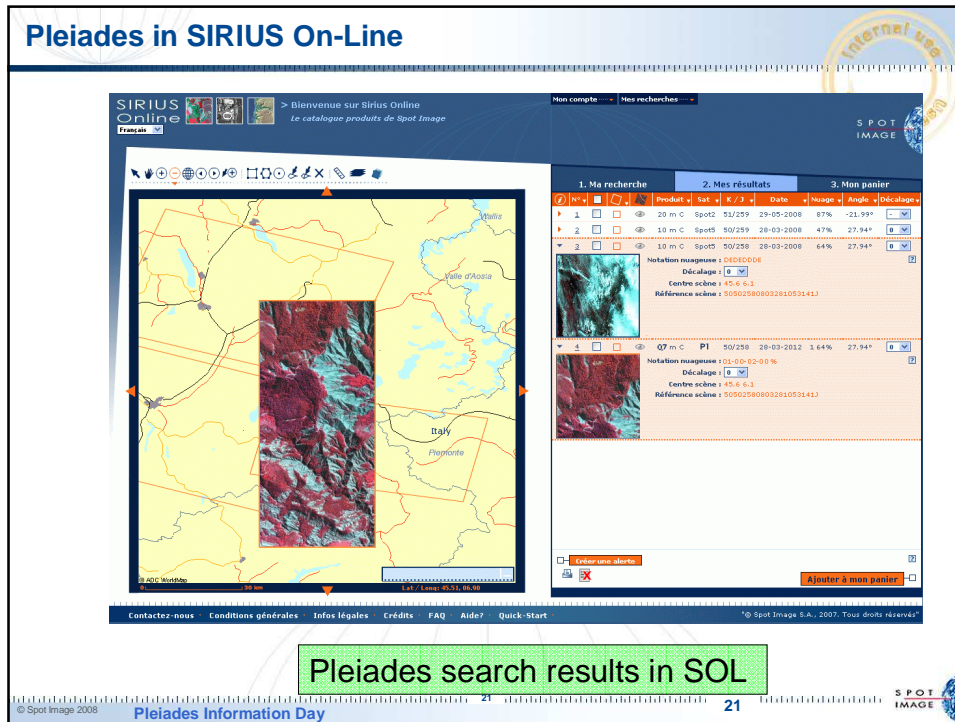

- 1. My search**: AREA OF INTEREST (Polygon), PRODUCT (Sensor: PLEIADES, FORMOSAT-2, P4E, MS, KOMPSAT-2; Resolution: 1m-2,5m, 1m, 2,5m, 4m-10m, 20m), ACQUISITION DATE (Start: 2008-03-06, End: 2008-06-06, Period: Last 3 months), CLOUD COVER (20%), ANGLE OF INCIDENCE (Any).
- 2. My results**: (Empty)
- 3. My cart**: (Empty)

Buttons for "Create an alert" and "Search" are visible at the bottom of the search panel.

Programming services (2)

- **Emergency data collection**
 - ICR accepted between 24h and 6h before actual pass
 - Deposits can be handled by time zone (Europe/Spot Image, US/SICORP, Asia/Spot Asia)
 - Emergency Programming fee is due as soon as corresponding data is effectively tasked

- **Dual programming**
 - Highest level of Priority, to be activated in case of crisis
 - 48h notice required
 - Limited quota of data daily
 - Dual programming fee is due in any case

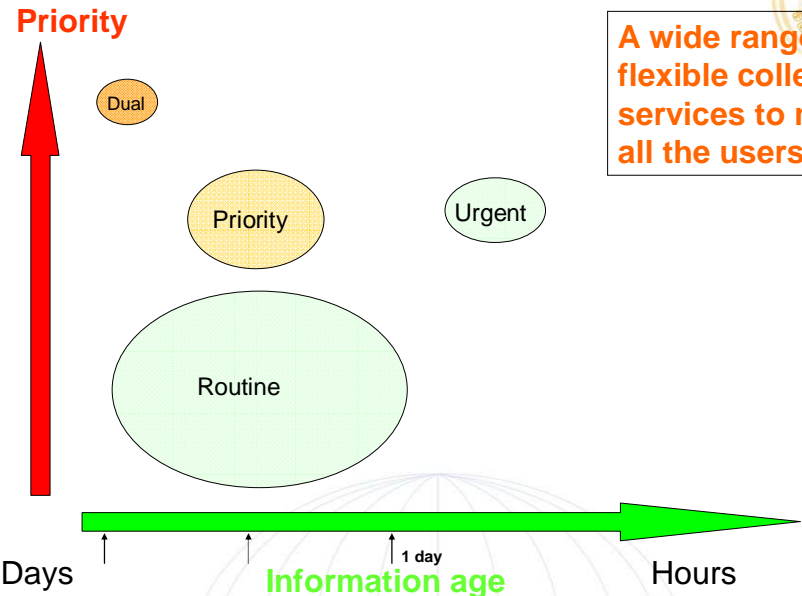

© Spot Image 2008 Pleiades Information Day 25 25 SPOT IMAGE

Programming services (3)

A wide range of flexible collection services to meet all the users needs

Days ↑ Information age ↓ 1 day ↓ Hours

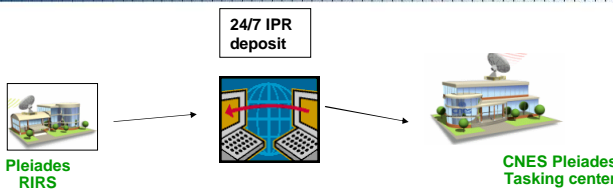

© Spot Image 2008 Pleiades Information Day 26 26 SPOT IMAGE

Summary

1. Image products overview
2. Catalog and Programming services
3. Pleiades for the ground stations: extended services
4. Pleiades data policy

© Spot Image 2008 Pleiades Information Day 27 27 S P O T I M A G E

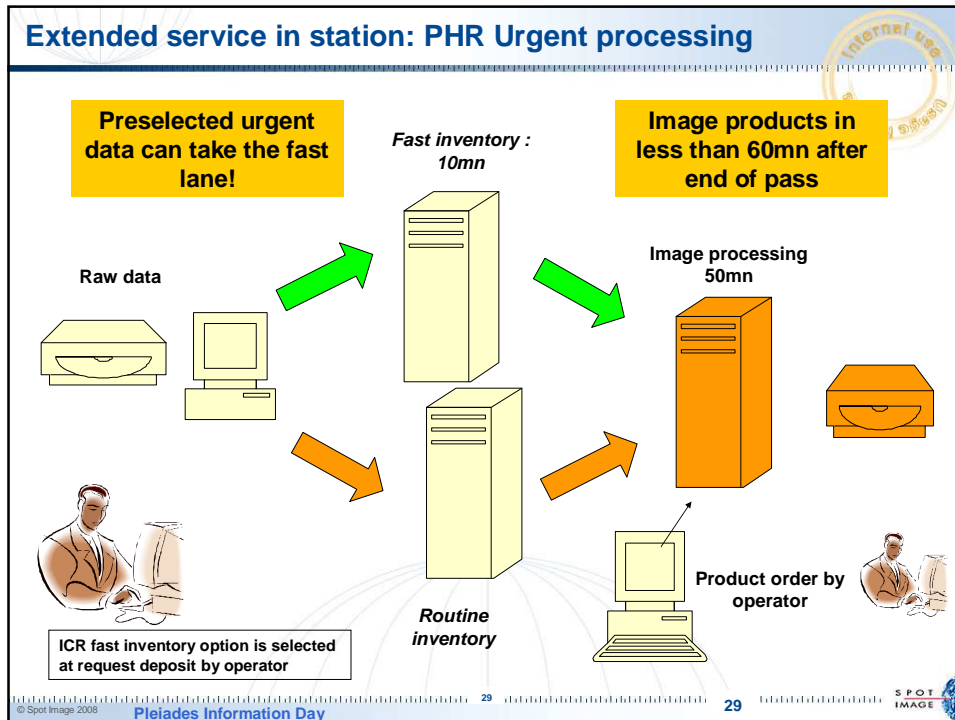

Extended service in station: 24/7 programming

```
graph LR; RIRS[Pleiades RIRS] --> IPR[24/7 IPR deposit]; IPR --> Tasking[CNES Pleiades Tasking center]
```

- Through specific IHM, the Pleiades RIRS can deposit the ICR directly on the civilian collection list
 - ICR accepted up to 4h before actual pass in Priority mode
 - Limited by daily quota
- RIRS programming access services available through PRM tool upgrade or Access Unit
 - Will include collection planning aid tool

© Spot Image 2008 Pleiades Information Day 28 28 S P O T I M A G E

Pleiades data policy

→ SPOT IMAGE selected as exclusive WW PHR 1A and PHR 1B distributor as of 18 January 2008:

- **Committed to enforce CNES agreements & partnerships with respect to:**
 - Image acquisition
 - Image production
 - Image dissemination and distribution
- **3 classes of users:**
 - Class 1: PHR Programme Partners
 - Class 2 : European partners having specific agreements with CNES
 - Class 3: others
- **CNES keeps intellectual property of data**

© Spot Image 2008 Pleiades Information Day 31 31 SPOT IMAGE

Pleiades data policy

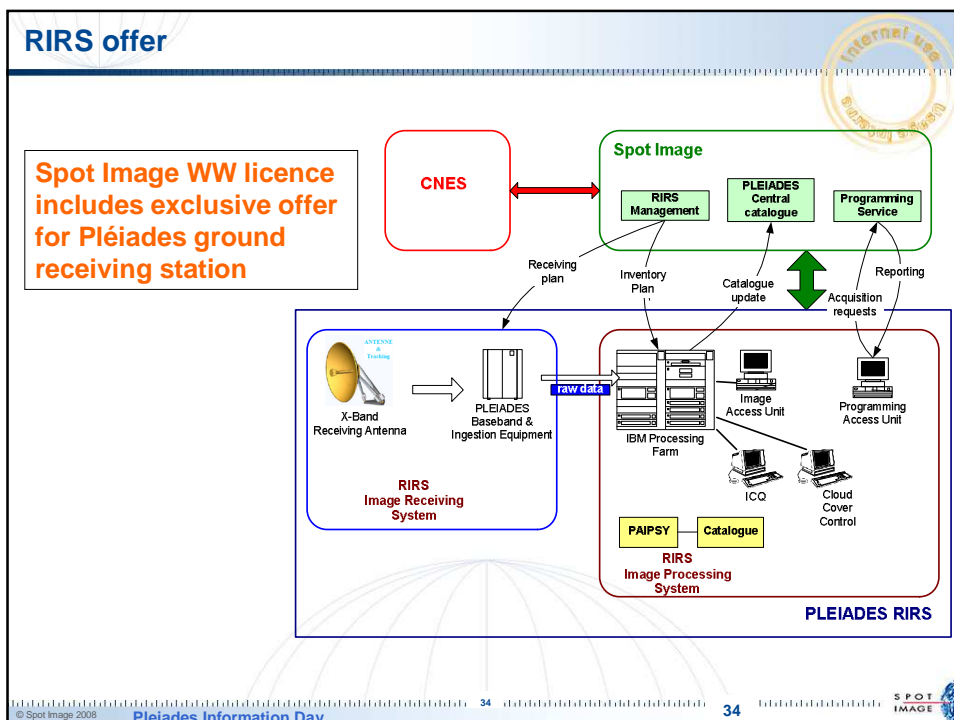

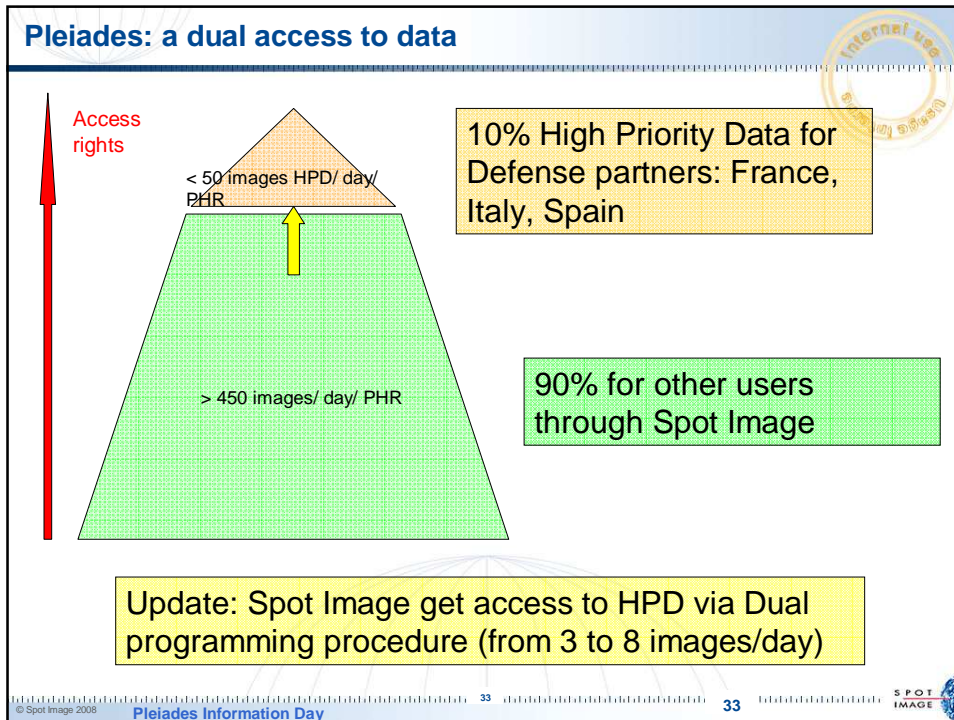

→ Spot Image committed to serve all users on equal footing in terms of Services & Products:

- **Specific non-profit price policy applicable to Class 1 & 2 users**
- **Class 1 & 2 users will use data for own internal purpose (*no sale or re-sale permitted*)**
- **Class 1 & 2 users authorized to make or have made Derived Products from data**
- **40% of PHR data are for Class1 & 2 users, 60% for Class3**

→ No restriction foreseen for data dissemination WW except usual UN regulations

→ Full resolution data (50cm products) available without delay from data reception for all users through Spot Image or ground station archive

© Spot Image 2008 Pleiades Information Day 32 32 SPOT IMAGE

RIRS offer: Services

→ Spot Image turn-key offer includes the following services:

- Site visit
- Solution design/customization (engineering)
- FAT (TBC)
- Packing/insurance/DDU delivery
- Installation/OSAT
- On Site Training
- Warranty
- Multi-year Maintenance Programme (Hotline, Problem reports, Trouble-shooting, Depot spares, Emergency recovery, S/W updates)
- Overall RIRS project management

Pleiades main antenna already installed at Spot Image facilities

The image shows a business card template for Spot Image. The left side is a blue gradient with a globe graphic at the bottom. The right side is white and contains the following elements:

- Spot Image logo with a globe icon.
- A circular seal with the text "Internal use" and "Usage Interne".
- The website address www.spotimage.com.
- A list of countries: France, Australie, Brésil, Chine, Emirats Arabes Unis, Etats-Unis, Japon, Mexique, Singapour.
- The AF AQ ISO 9001 VERSION 2000 certification logo.
- The email address sales@spotimage.com.
